

Fishing, Crabbing, Clamming &...

CENTRAL OREGON COAST MARINE FISHING (an Online Guide):

dfw.state.or.us/MRP/publications/recfish/central_marine_guide_2010.pdf

Surf fishing on the sandy beaches occurs locally year-round with perch and striped bass as the most common catch. Chinook salmon are fished from the Alsea Bay and River from August through September. The Yachats River is a good location for catching sea run cutthroat trout from July to November. Newport's Yaquina River, and Florence's Siuslaw River & many lakes also offer excellent fishing. Licenses required for all fishing, including crabbing & clamming.
